Height : 23 cm

Description

Very pretty night light-tea maker in porcelain entirely painted by hand. Composed of a jug complete with its lid and decorated with two very beautiful floral compositions on a turquoise blue background, our jug rests on a cylindrical base of the same color and decorated with a bouquet on one side and presenting a housing on the other, containing a small cup for the wick and the oil. The latter keeps the herbal tea warm and diffuses a weak light by means of six small holes positioned in the upper part of the base. Lid, jug, base and bucket are also embellished with several circular threads made with fine gold. Our porcelain bears a signature to be identified under its base. Shipping and protection costs, 20 euros in metropolitan France, other destinations contact us.
