### Description

Pair of painted wooden low chairs - end of the Empire period / beginning of the Restoration period Backrest of great modernity. Jeanselme at that time made similar ones. The paint is original. There would be the possibility of having the painting reworked by a painting restorer (quote on request). But I don't think it's necessary. Solid and reupholstered to new. Seat 52 cm x 52 cm  
Total height 100cm Seat height 40 cm
