### Description

This bronze subject is very well made, it is from the 19th century. It bears no signature but is finely executed with great precision, especially in the detail of the shoulder pads and the face. We report scratches, a little verdigris, wear and classic friction on a 19th century bronze. Note a small lack of patina. Our many photos allow you to appreciate the quality of the object. For the state thank you for detailing the photos. Feel free to zoom. The photos are an integral part of the description. Dimensions: Height: 13 cm Width: 8.5 cm Depth: 5 cm E: M1559
