Description

More than three hundred unique pieces chosen for their decorative potential (doors, windows, woodwork)

Beautiful old oak and wrought iron gate in very good structural, solid and presentation condition, molded on both sides.

It has stood the test of time thanks to the thickness of the wood and the beautiful pieces of wrought iron, wrought iron in the upper part which follows the shape of the wood and wrought iron in the lower part at right angles and hinges. The pivoting axis of the door rests on a generous pivot in the lower part which lightens and facilitates opening and also ensures maintenance over time.
