### Description

The Monjardet model 1910 candle lantern is a folding tin lantern with a triangular section that is part of the hairy man's package. It comes with a canvas carrying case and two tallow candles. The diffusion of light was ensured on two of the three sides by a glass plate reinforced with a mica plate. The carrying of the object is possible thanks to two iron side handles, retractable and stackable, located on one of the sides, as well as a metal handle located on the upper part of the object. A screw cap, under the lantern, allows the replacement of the burnt out candle. Very nice piece, normal wear but good general condition  
Original glasses, complete piece Free and insured shipping in mainland France
