### Description

Interesting oil on canvas mounted on a wooden panel representing the triumph of Silenus.

a very beautiful bacchanalia scene animated by many characters:

Silene appears wearing a crown of vine branches, a cup in her hand and riding an ox.

he is surrounded by bacchantes and satyrs dancing and playing musical instruments, all in a bucolic landscape.

this oil on canvas is bright in color and is also original in its oval shape. the features of the figures are lightly sketched as if it were a preparatory study for a larger painting.

the canvas is in good condition and has some small lack of paint at the level of the angel placed at the top of the composition in the sky.

the canvas was mounted on a wooden panel.
