beautiful and generous blooming flowers like the front crosspieces carved with briot. The lashes on the backrests as well as on the armrests are its signature and its particularity, in particular the sides of the seats dressed and with pretty elongated ovals giving it all its strength of lines and in particular attachment to the airy and solid openwork backrest for more of lightness a beautiful set for Amateur of this period so full of inventions and research of harmony of line in the novelty going against the current of what could have been done at the end of the 19th century where the furniture was a pastiche of Henri II and neo this neo that....Small cushions as clean accompany itDoo
