Description

Here is a drawing from the 1930s representing a discobolus, probably a study, a work of Fine Arts. The technique is mixed charcoal and sanguine. Note that the work is stained, pitted and a little warped, we point out tape and traces on the back, this remains acceptable. Our numerous photos allow you to appreciate the quality of this drawing. For the condition, please detail the photos. Do not hesitate to zoom in. The photos are an integral part of the description.
