

"mom Is Watching!" : Bronze Of A Hare And Its Cub

Description

Charming and original scene of a hare and its cub, 19th century bronze. The seated animal, one ear erect and the other lying down, stands on a vegetated mound in which we can see the entrance to the burrow where a small hare is hiding. The patinated bronze with golden reflections remains in very good condition, it is fixed by screwing to an original serpentine marble base. Some cracks and small repairs to the base indicated by the arrows in the detail photos which do not affect the solidity of the whole.
Note: to be more precise we can talk about the base near its lever. Price nonnegotiable. Delivery: EUR10 for mainland France.
