### Description

Exceptional Italian wrought iron table from the Piemonte region, Lombardy.

Very beautiful execution, tables of this quality and this large size are very rare.

The top of this 17th century scagliola table was sold by the previous owner; I recommend replacing it with a plexi top so you can see all the beautiful details of the base.

The quality of this table is truly sublime.

Lombardy; Piemonte around 1880.

Dimensions : Length 196.5 cm Height 83 cm  
Depth 90 cm
