Copper matrix for heliogravure

13 x 16 cm

Signed lower right

Rare copper matrix for a heliogravure of the famous painting by Albert Marquet from 1904 'La Seine, Vue Du Quai Des Grands Augustins' We know that the merchant Ambroise Vollard around 1908 published photogravures and heliogravures of works by Marquet and it is reasonable to think that our matrix could have been produced by Albert Marquet and Ambroise Vollard for this purpose
