Description

Very heavy and very present in the hand, here is a beautiful goblet, cylindrical in shape with a slightly flared neck, in bronze or brass. Well chiseled, it is decorated with motifs of geometric shapes, with in the center 8 chiseled medallions of different characters, richly dressed, including one in profile. The item already seems to have been restored, and has a small hole in the same place, a sign of break of this same restoration. It is therefore sold in this condition, please look carefully at my detailed photos, I am not hiding anything!

Oriental working, probably Iranese or Syrian, dating from the second part of the 19th century. Dimensions: 9cm H. Base 7cm Diameter, Neck 9cm Diameter.
