Description

A black enameled ceramic...With a decoration of grapes, foliage and two large stylized leaves of great beauty...Which are in application, therefore worked separately...From the 1950s/60s...The material is astonishing, it looks like to the sight...And to the touch, like metal...Like patinated bronze...The shape is also nicely done...well rounded...And in places a little crooked...!In good general condition except for a small chip on the collar...Signed at the bottom with certainly the city of manufacture I read DONA ROSA SB COYOXOPO...A place in MEXIQUE...Weight... 424 gr
