Description

We are presenting an outstanding pair of antique girandole earrings with amethysts and 14K Gold. From Venice, half of the 19th century. Amethyst was thought to prevent drunkenness. The stones are "briolet" cut therefore they shine very well in all position. The girandole style was typical of Venice in that period. They are very light and elegant to wear. In perfect condition despite the age. 14K Gold (touchstone tested). Half of the 19th century from Venice. An old hallmark is on the hooks.
