### Description

Large Guyon type bladder syringe from the end of the 19th century. In bakelite glass and chromed metal, graduated from 25 to 150 ml. Intended use: medicine: urology. Accuracy of use: This syringe was used for urinary tract conditions. Used for bladder enemas. The tip of the syringe is connected to a bladder catheter, the fingers were passed through the piston ring to exert greater pressure and inject the liquid. Good condition. Length 25.5 cm.
