### Description

superb pair of earthenware plates with intense blue decoration centered with a stylized flower. Attributing these pieces to a production center is not easy. I am happy to thanks a client who say that a production from Lodi in Italy, and similar items are represented in Milan and Faenza Muséum . This is a proposal that can be retained, but any confirmation, or new proposal will be welcomed with pleasure. Earthenware is an exciting, magnificent field, which requires a lot of humility. The two pieces are in excellent condition as shown in the photos.
