Description

Made of hardened wood, this is an unusual model with floral decoration, with both very royal fleur-de-lis and very Van Goghian iris branches! Its oval view still has its original convex glass. This frame needs to be hung because it has lost its back plate on which the base was fixed. Someone has tinkered with a device to hang it on the wall that I have left because it seems to me to be correctly made.

Oval view 8.5 x 5.5 cm
