

Garden Umbrella, Iron Lattice Circa 1900

380 EUR

Period : 20th century

Condition : Etat d'usage

Material : Wrought iron

Description

Garden Umbrella, Iron Trellis circa 1900 Ideal for highlighting your weeping rose bush, this 2.20 meter high iron steel umbrella stake is specially designed to guide your favorite climbing plants. Thanks to its steel petals, this umbrella stake offers a solid and elegant support for your plants, such as wisteria, rose bushes, clematis, passion flowers, honeysuckle, kiwis, vines and mulberry trees... This stake with a diameter of 1.20 m can also be used to support an existing plant. Used condition, no missing parts
