Description

Rare pair of watercolors by the late 20th century French artist Francois Gilletta-Cambianis. He is known for his watercolors, particularly those depicting fishing port landscapes near St Tropez, Nice and the shores of the Mediterranean. The two works presented are signed lower left and the other lower right. These two watercolors are very well framed and glazed and would deserve a little scrubbing because they are slightly spotted, which does not spoil the beauty and quality of these two works. Dimensions with frames 54 x 39.5 cm. Dimensions of the works 38.5 x 24 cm they are identical.
