Description

Rare and superb oval Limoges porcelain dish by Haviland & Parlon in the "Golden Roses" pattern

Hand painted and gilded with fine gold

Signed under the base

Near new condition Probably never used

Length: 42 cm

This decoration was created in the 1970s, at the request of an Arab prince to equip his palace, which he was building in the desert. In the center of it bloomed a rose garden that could be seen from the dining room. The plates were then to extend the richness of this garden.
