Description

With intricate guilloché etching enveloped in an enchanting translucent blue enamel, this Art Deco Asprey guilloché vanity set is inlaid over an engine turned design typical of the period. Also known as a toilet service or grooming set, vanity sets were a popular wedding gift and were kept on the woman's bedroom dressing table.

This vanity set is finely crafted of sterling silver and guilloché enamel, a decorative technique that combines mechanical engraving and colorful enamels to create mesmerizing, translucent finishes that catch the light beautifully. This five-piece set includes a handheld mirror, two hair brushes, and two garment brushes, each backed with bright blue enamel etched with striped banding, waves, and geometric flourishes
