Description

Exceptional!: Pair of Neoclassical Chandeliers in Crystal and Mercury Gilt Bronze. We are pleased to present a sumptuous pair of neoclassical chandeliers in the style of the early 19th century Swedish, made of cut and colored crystal, and finely chiseled gilt bronze. These exceptional pieces, of very rare elegance, embody the balance and refinement characteristic of the 18th century.

Origin and History: o These chandeliers were made at the end of the 19th century and come from a prestigious neoclassical style residence located in Florence, Italy. o Although we initially believed that they date from the early 19th century, a recent restoration has modernized their internal structure: all the vices and rods have been replaced by modern materials to guarantee their durability.
