Description

Glass and metal coffee table created in the early 80s by Paolo Piva. It was manufactured by B&B Italia and marketed under the name of Alanda.

The glass is in very good condition and without scratches. It is square in shape, 120cm on each side and 26cm high. The glass plate is thick and directly placed on the metal structure.

Be careful, there is a competing copy of this very beautiful model but this copy has differences: the glass is thinner and fits into the metal structure, the height of the table is greater (34cm instead of 26cm) and the metal parts are thinner than on the original model.
