Description

Pair of beautifully executed color engravings by this specialist who was essentially a landscape artist and also known as an illustrator. Only the Marie-Louise of "the house near the lake" would need to be changed and some traces of time on the work are unfortunate but do not spoil the beauty of these paintings. The other work represents "the woman with the bundle" magnificent in light and details that let us imagine the work done. The 2 paintings are framed and glazed. Identical dimensions 55 x 47 cm. Dimensions of the works alone 30.5 x 24 cm x2
