

Delvaux Vintage Shoulder Bag

Description

In the purest tradition of this prestigious house where elegance has been combined with leather goods since 1849...magnificent vintage shoulder bag, always protected by its canvas case. It consists of a central pocket lined with a pen holder and a key ring, another zipper pocket on the back. This magnificent bag has been worn, some unhidden marks on the corners near the brass feet. (A little "Barrane" type shoe polish should get rid of them).
