### Description

Beautiful statuette of the Virgin and Child, regilded wood, perfect condition of the wood and gilding. Beautiful carving work in the pluses of the dress, very elegant. Curiously, the Child already has hair, visible in long locks on the forehead. He holds the World in his right hand, and is dressed in a long shirt. The eyes of the Virgin and Child are quite stretched. Small octagonal base, with a small lack on the right angle. French work from the end of the 18th century.
