combined with the exceptional quality of its wool, has made this region a renowned carpet production center. The "HAJ JALILI" factory is part of this lineage and perpetuates ancestral know-how.

The characteristics of "HAJ JALILI" rugs
"HAJ JALILI" rugs are distinguished by several characteristics:

The fineness of the knotting: The knots are extremely tight, which gives the rug an exceptional density and softness.

The richness of the patterns: The patterns are often complex and inspired by nature, architecture or Persian poetry. Medallions, flowers, animals and calligraphic inscriptions are frequently found.

The quality of the raw materials: The wool used is exclusively natural and of very high quality. It is often dyed with natural dyes to obtain bright and durable colors.

The diversity of formats: "HAJ JALILI" rugs are available in a wide variety of formats, from small accent rugs to large living room rugs.
