Description

Elegant Napoleon III display cabinet - 19th century

Superb Napoleon III period display cabinet in blackened pear wood, enhanced by delicate ivory inlays and beveled glass.

This refined piece of furniture is distinguished by a sculpted coat of arms on the cornice and two side bobèches, giving it an aristocratic charm.

Composed of two removable parts - a glass section for display and a storage unit with two shelves - it combines aesthetics and functionality. The ivory ornamentation is of great finesse, featuring a majestic cup framed by two winged dragons with sinuous tails, surrounded by arabesques, vegetation and draperies.
