Description

Beautiful large 1900 lamp with large Gallé tulip with clematis. Exceptional piece for this 1900 lamp with a large tulip with clematis entirely acid-etched. Note the beautiful shape with this tightened bulb and this flared opening with 5 hot-drawn tips. Beautiful purple colors on a pink background. This tulip is associated with a very beautiful foot in very worked gilded bronze and resting on a pretty griotte marble protected by a brass protective plate. 52 cm high for the lamp, 18 cm in diameter at the opening of the tulip. Tulip signed "Gallé" engraved on the side, around 1900. Very good condition, nothing on the tulip, small chip on the marble without any consequence. Exceptional art-nouveau lamp, rare Gallé tulipe, rare shape.
