### Description

A very atypical link, perhaps of Scandinavian inspiration (?), and a resolutely designer look make all the appeal of this unisex gourmette bracelet from the 1960s/1970s, in solid silver (925/1000 sterling silver), marked in the hollow of the clasp, without any other visible hallmark. Beautiful used condition, without fragility, with an effective clasp. Length = 18 cm Width = 13 mm Thickness = 3 mm Weight = 60 grams Very careful shipping in addition, to be defined according to destination...
