Description

This Impressionist Work on its beautiful elegantly framed key frame is of high quality, both in its composition and its details. In a pleasant and bright format, this Work by Ch. Vinnareli is very successful, full of life, where the naked artist transports into this pretty undergrowth with a sparse edge, where characters evolve in the enjoyment of a hot afternoon in the shade of the trees, a man lying down, peacefully concentrated on reading at the foot of a tree, the others a woman leaning against it also rests, another umbrella in her hand, chatting standing while a little girl in a boater letting her large braids escape accompanies them, further away at the edge two other women chat in the sun, one of whom is protecting herself and a rider marking time on his mount. The foliage of the trees
