### Description

Very beautiful silverware from the first half of the 18th century, around 1740, in good condition, original pantine, the interior in the original color. The furniture was made by a very good craftsman from the Liège region. Liège is one of the most renowned cities for the manufacture of furniture of exceptional quality. The furniture consists of an upper part and a lower part, the upper part was used to display the most precious silver objects. The lower part was used for dishes. The drawers were used to store silver cutlery. Above the drawers is a sliding plate which was used to wrap the cutlery in napkins. Price 3499EUR / now :2999EUR
