Description

Antique wooden sideboard or bathroom cabinet with white and light gray marble top. In perfect original condition, it has been cleaned. It has also been completely sanded on the outside to remove its brown varnish and restore the lovely patina of its old wood. The inside of the drawers and cupboard has also been sanded. It has been protected with a colorless wax. The marble top has been lightly polished and then polished with linseed oil. The marble top is in good condition, with micro-scratches, normal for its age, visible in the photos. This sideboard / bathroom cabinet has a good storage capacity with its two drawers and a cupboard divided into two parts, one of which has a shelf (not adjustable in height). The drawers and doors of the cupboard are decorated with antique white porcelain and brass knobs,
