### Description

Rare! This set of 2 Scandinavian armchairs is both vintage because it dates from the 60s, designer with its boomerang style and new because it has been completely renovated. Made of beech wood, they have been sanded, their original varnish being very damaged, then protected with a colorless matte varnish. The Bultex cushions are new and comfortable. The cushion covers in mottled green upholstery velvet have also been custom-made; they are removable. Dimensions of the armchairs: L60 x D69.5 x H74 (seat: 42).
