

Tsogho Vuvi Mask (gabon) Cult Of Bweti

1 200 EUR

Period : 20th century

Condition : Etat d'usage

Material : Painted wood

Description

Superb Tsogho Vuvi mask from Gabon, but we can also feel the influence of their Punu and even Fang neighbors. Height 31.5 cm, good condition, wear, beautiful patina of use. This mask is aesthetically magnificent, the face inscribed in a double heart, the eyes half-closed, the mouth which stretches as if for a kiss, the fine and slightly upturned nose, a delicate and soft modeling, a beautiful serene presence, for me a masterpiece of the genre.
