### Description

A prestigious pair of reliquaries carved in limewood, crafted in the early 17th century following the refined Sansovinesque style, characterized by dynamic shapes, rich scroll decorations, and a typically Baroque elegance. The pieces feature an original gilding on Siena earth-colored bolus, which retains all its antique charm while requiring some consolidation work. The carvings, executed with great mastery, display cherub heads and finely sculpted ornamental details, giving the reliquaries an aura of sacredness and refinement. Main Features: Period: Early 17th century Style: Sansovinesque Material: Carved and gilded limewood Dimensions: Height 65 cm, width 35 cm Condition: Excellent preservation of the original gilding, with some need for
