Description

Parisian pine sideboard with two drawers and a cupboard with a shelf (fixed). It has been completely renovated: it was sanded to get rid of its two thick layers of paint, then its top was protected with a colorless matte varnish, the rest of the sideboard having remained raw. The interior was painted in the soft Edelweiss color (off-white with green) from Libéron. The lock is no longer functional. A magnet has been added to ensure the doors of the sideboard close properly. This is a Fauvette, a safe bet, timeless, simple and elegant. Its dimensions: L96 (102 with the cornice) x D45 (48 with the cornice) x H100.
