Description

These vases are of Chinese or Indochinese origin. They are 19th, there are chimeras on the handles. Floral decor. They have a beautiful carving, they are of quality. Note that one of the handles is loose and on this same vase small white spots that will probably leave with careful cleaning. It didn't go away with a damp cloth. Some traces of verdigris. For the state thank you to detail the photos. The photos are an integral part of the description.
