YOUR OFFERTwo boxes older than me,
survivors of a collection, practically in new
condition, entitled: Mon Zoo (therefore of French
origin ...). contain a luxuriant setting in front of
which, once the cardboard barrier is erected, our
child's imagination brings all the 80 figurines to
life. We find there pell-mell the wild fauna of
Africa, the animals of our forests, a pigeon larger
than its neighbor rhinoceros, a cowboy ... normal
next to the bison but the most frightening is the
red hare, more imposing as the giraffe ... Two
impeccable boxes full of colors dating from the
years 55 - 60.
