Description

Rectangular snuff-box in gold and enamel. The hinged lid is worked in champlevé enamel. On fine cavities made in gold, a symmetrical decoration in polychrome and translucent enamel presenting a Medici vase with a floral bouquet is organized. This vase stands out against a background of opaque black enamel embellished with gold foliate left in reserve and polychrome and translucent flowers in champlevé enamel. A frieze of interlacing in white enamel frames the composition. The base of the snuffbox is decorated with a centered decoration of floral pattern on a translucent blue enamel guilloché background. This decoration is framed by a bunch of grapes in champlevé enamel on a black enamel background.
