Description

Very beautiful carved mahogany bench decorated with roses and ribbons, made around 1850. The back of our sofa is surmounted by three sculptures (two of which are openwork) with vegetal decoration, the central sculpture representing a wrapped bouquet of roses. Very beautiful turbulent sculptures on the armrests and front legs. The front crosspiece has a reminder of the rose motif in its center. The upholstery is in very good condition, the seat is very comfortable. Elegant covering fabric in pastel tones decorated with old roses giving a very romantic look to the whole.
