Description

Large lamp representing a stylized pineapple in gold-plated bronze and crowned by leaves in embossed and gilt brass. Under the pineapple, the tree is symbolized by a more important triple crown of leaves in gilt brass. The whole stands on a gilt bronze base finished by a pedestal that lets escape the axis of the lamp. The original lampshade, is in metal with a black patina, enhanced with fillets gilt at their endings. The lamp is topped by a stylized seed or acorn.
