Description

rare Kirman or Kerman, Iran, end of the 19th century, in short shaved kerk wool, hand knotted, measuring 122 cm wide by 195 cm long, for a density of about 450,000 knots per m² composing a superb medallion carpet decorated with 'tracery, aristoloches, flowers in shades of blue and pink on a cream background. Very soft and fine kerk wool is the wool taken from under the neck and stomach of lambs. The carpet has a fineness of about 5 mm thick, the density of the knots and the quality of its wool make it a solid and resistant carpet. The Kirman is often decorated with flowers and most of the time has a medallion that stands out against a plain background, in this case the motifs of the medallion are repeated in the border and the four spandrels (corners). Some of these rugs also feature large animal scenes. Our
