Description

This bracelet is composed of three rows of Japanese Akoya cultured pearls and a barette clasp in 18 KT rose gold (eagle's head hallmark) finely guilloché. The pearls offer all the characteristics of high quality pearls: a beautiful dimension, a very round shape, a very smooth surface which gives these pearls a very lively shine ... Due to this very beautiful Orient, mother-of-pearl also offers subtle color nuances. Gross weight: 28.97 g Diameter of the pearls: 6 - 6.5 mm Wrist circumference / length: 18.5 cm - can be modified by re-threading in our workshop Condition: micro-scratches on the gold parts - the rows of pearls have just been re-threaded with knots, and are in perfect condition (must relax when worn to avoid the effect of "waves" visible flat but not visible when worn) Our reference:
