Description

Liqueur service from the house of Schneider in gilded glass composed of a decanter and six glasses, with Art Nouveau decorations with plants and birds.

One of the six glasses is broken, as seen in the photo, we own the piece.

This one had already been glued.

There are also two impacts on the stopper of the carafe, one on the built-in part of the stopper and the other on the lathe.

These two impacts are hardly visible once the stopper is on the carafe.

Some lack of gilding in places.

Work from the 1950s.

Dimensions -

Weight : 880 grams
