Description

Beautiful cup or centerpiece in brassware "Bignones" by Lucien Gerfaux. Beautiful signature of the art-deco era, this cup is made of brass and copper with a chrome ball or at the base and a stained wooden support. Nice brassware work with these bignone flowers in relief on a brown patinated background. Very nice job. Signed, 32 cm in diameter, very good condition (no spine or other), normal wear on the patina. Beautiful art-deco piece, very decorative and beautiful signature.
