

Old Car Necklace In Diamonds And Rubies

3 000 EUR

Period : 20th century

Condition : Bon état

Material : Gold

Description

Antique necklace made up of a fine file chain, which holds an antique pendant in the shape of a car on the front, adorned with rose-cut diamonds and round, calibrated rubies.

The wheels turn.

The attachment system is a spring ring.

Period: 20th century

Main material: yellow gold, 750 thousandths, 18 carats, eagle's head hallmark and platinum.

Total length of the chain: 46.5 cm, width of the pattern: 2 cm, height of the pattern: 11.5 mm approximately.

Net weight: about 3g.

Antique jewel - French work from the beginning of the 20th century. Small trace of restoration on the back of the pendant, barely visible.

Our opinion: This car-shaped motif comes from another old jewel on which it was disassembled, to be presented as a necklace. A very successful transformation.
